Education

Vellore Institute of Technology, Amravati , Andra Pradesh

June 2020 – July 2024

B.TECH Computer Science

GPA: 8.8

Ramakrishna Mission Vidyalaya, Agartala, Tripura

April 2018 – April 2020

All India Senior School Certificate Examination Science

GPA: 89 %

Ramakrishna Mission Vidyalaya, Agartala, Tripura

April 2009 - April 2018

All India Senior School Certificate Examination Science

GPA: 89 %

Experience

Chubb

June 2024 – Present

Software Engineer

Hyderabad, India

- Designed and developed a Model Context Protocol (MCP) server using Crew AI, enabling seamless integration between Active Directory, Netwrix, and Azure ADB2C. Equipped the platform with a suite of intelligent tools that execute specialized functions based on dynamic prompts, transforming identity and access management workflows.
- Developed an AI-driven error management agent that autonomously detects error codes from API responses, analyzes underlying causes, and executes predefined remediation workflows (e.g., validation, correction, resource creation)—enabling proactive troubleshooting, intelligent remediation, and enhanced system resilience with minimal manual intervention.
- Developing and integrating solutions in SailPoint, ensuring robust security compliance and automating user access provisioning.
- Designed and engineered a fully custom wrapper API infrastructure around SailPoint, automating seamless API deployment through a CI/CD pipeline to Azure App Service, enabling global availability and scalability.
- Built and maintained APIs and microservices using .NET Core, enabling efficient integration across enterprise systems.
- Implemented several automation scripts for operational tasks, improving system efficiency and reducing error rates.
- Automated key processes using Azure Functions and PowerShell scripting, reducing manual overhead significantly.

Chubb

September 2023 – May 2024

Technology Intern

Hyderabad, India

- Designed and developed a full-stack inventory management system leveraging Java Spring Boot and Angular, delivering a robust, modern web application with advanced functionalities such as real-time updates and analytics dashboards.

IIT Kharagpur

June 2022 – August 2022

Software Development Intern

Kharagpur, West Bengal

- Engineered a FHIR (Fast Healthcare Interoperability Resources) module on an open-source, web-based system, improving data exchange efficiency and interoperability by 25%.
- Optimized backend systems by mastering SQL and API integration, significantly enhancing data management processes.
- Developed backend applications using Java Spring Boot, increasing system reliability by 20% and streamlining performance.

Technical Skills

Programming Languages: Java, C++, MySql, SQL, RDBMS concepts

Web Technologies: HTML, CSS, JavaScript, ReactJS, NodeJS, MongoDB

AI & ML: Machine Learning, Deep Learning, Natural Language Processing, TensorFlow

App Development: Flutter, SwiftUI, Figma

Data Visualization: Tableau

Projects

Threads | ReactJs, NodeJs, MongoDB, ExpressJs 

July–Aug 2023

- Enabled real-time updates and notifications, enhancing user interactivity and engagement.
- Implemented secure user registration and login features, safeguarding user data and ensuring data integrity.
- Utilized React hooks and context for efficient state management, ensuring a smooth user experience.

Schizophrenia Detection using EEG Signals | Deep Learning, OpenCV, GCNN 

Jan–July 2023

- Evaluated VGG16, CNN, LSTM, and VAE models, achieving a 95% accuracy rate with the VAE model.
- Enhanced the analysis process by transforming EEG records into spectrogram conversions, improving data processing speed by 30%.

Certifications

- [Fundamentals of Accelerated Computing with CUDA Python](#)
- [Fundamentals of Accelerated Computing with CUDA C/C++](#)

Achievements

RESEARCH PUBLICATION : Presented and published the paper “Spectral and Graph-Based Deep Learning Models for Schizophrenia Detection” at the 2023 International Conference on Emerging Research in Computational Science (ICERCS). Explore the details here: <https://lnkd.in/dwsUPW6D>.

HIGH PERFORMANCE COMPUTING ”NVIDIA”: Clinched 1st position in One Week National Online Workshop - CODETHON 2022 on “HIGH PERFORMANCE COMPUTING”.
